EXAMINER'S AMENDMENT

An Examiner's Amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 C.F.R. § 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the Issue Fee.

The following changes to the drawings have been approved by the examiner: fig 17, replaced by a replacement sheet filed 6/21/06, shows the pressure compensating valves 168 as having two pilot lines extending from before and after the pressure compensating valve, respectively, to the left side of the pressure compensating valve. This is incorrect. One of the pilot lines must be connected to the right side of the pressure compensating valve, with the other connected to the left side of the pressure compensating valve (similar to below). In order to avoid abandonment of the application, applicant must make these above drawing changes.
